Your goods **our**

Trust us – and you'll have a smooth ride

Your goods deserve to be treated with care. With us your goods are in safe hands.

When you entrust Contino with your goods, it will not leave our care from the moment we collect it until it has reached the destination.

No reloading. This is the best possible guarantee that your goods will arrive in tip-top condition.

Our 98% delivery performance is the proof that we deliver on time. This performance is only possible with a dedicated approach to the task and because we are going the extra mile for our customers.

Our large, and modern fleet gives us a head start that enables us to deal with unforeseen situations without missing our deadlines. We are able to anticipate events thanks to our proactive drivers and a satellite navigation system that closely monitors the position of our vehicles.

safety

Our care strengthens your image

**Choosing Contino means
having an ultra-modern
fleet of trucks, committed
employees and modern
warehouse facilities at
your disposal.**

Contino has Danish roots and our head office is located in Denmark. We are specialised in logistics and international transport of dry cargo and have more than 30 years' of experience on the European road network.

We have trucks available all over the continent at any time. This gives us the flexibility to deliver a product that meets your expectations. Flexibility is also an important parameter in connection with urgent deliveries, reliability of supply and special projects.

Our care strengthens your image.

Efficient and reliable transport adds value to your business.

responsibility

We do not cause unnecessary impact on the environment

Our regard for the environment is reflected in our choice of equipment and technology. It is not enough for us to comply with current environmental requirements; we continuously strive to be one truckload ahead of legislation.

Using common sense in everyday life can also make a difference. Contino is very aware of the need to avoid unnecessary impact on the environment. We are jointly responsible for the environment, and we take this responsibility very seriously.

We demonstrate this by ensuring that all our drivers regularly receive training in environmentally friendly driving techniques. The overall goal is to reduce the emission of harmful particles.

We look forward helping you

If you have a transport, storage or logistics task, we will do everything possible to help you. You are always welcome to contact us for more information.
